

I am getting the Response like this previously, Which is great so that I can use individual fields in later app.

^ Response Received	
Video Meeting Pwd	
Video Meeting Link	https://zoom.us/j/98905951084
Video Meeting Id	98905951084
Type	onetoone
Group Id	
Event Data Time Zone	Asia/Kolkata
Event Data Name	EMAS - Discovery Call
Event Data Id	4db11eb71528d9b0af158aa9
Event Data Duration	45
Created	2022-11-03T12:12:36Z

But not , Getting everything in one field. Like below

^ Response Received	
Label	Value
Response	<pre>{"action": "booking.created", "type": "onetoone", "created": "2023-06-27T03:27:18Z", "booking_number": "EBD0-E617-954E", "booking_date_time": "2023-06-29T06:50:00Z", "video_meeting_link": "https://zoom.us/j/93512099380", "video_meeting_id": "93512099380", "video_meeting_pwd": null, "event_data": {}}</pre>

How to tackle this.
